

McPhillamys Gold Project

Project Update

Tony McPaul
Manager
Special Projects

Jobs and training opportunities

One of the great benefits of the McPhillamys Gold Project is the boost it will provide for Blayney and the Central West.

At least 480 jobs will be created during the 12-18 month construction period and another 260 per year, on average, in operations. And our 'locals first' recruitment policy will mean lots of opportunities for residents of Blayney Shire to work on the project.

A boost for Blayney

Blayney businesses will also receive a boost, with new jobs created by demand for goods and services from the mine and the people working at the mine.

They'll be needing food, accommodation, equipment, fuel, machinery, childcare, education, training, computing, technology and communications, to name a few.

How to show your support for McPhillamys

I've spoken to a lot of locals lately who support the McPhillamys Project and are keen to see the benefits it will provide for our community. Many of them have asked how they can show their support for the project, not realising that it's as easy as writing a quick letter to the NSW Department of Planning, Industry and Environment (DPIE).

The DPIE is very keen to hear what locals think of the project. You can send your letter to: Planning Services, NSW Department of Planning, Industry and Environment (DPIE) GPO Box 39, Sydney NSW 2001.

You can also do an online submission at this link: <https://www.planningportal.nsw.gov.au/major-projects/project/9821>

If you need help with your letter or submission call into our office or phone us (02) 6388 4100. We're happy to explain the process.

Regards,

Tony McPaul, Manager Special Projects
