

## Project Update

Special Projects*

### *Project progress*

We've had a lot of enquiries about where things are up to with the McPhillamys Gold Project so we thought it was timely to provide another update.

Whether its jobseekers or local businesses people keen to see things moving, the number one question we get asked is, "When will you be starting?"

Getting a decision is also important for our neighbours so they can make plans with certainty, either way.

The assessment process is thorough and complex, involving scientists and other experts, government agencies and many stakeholders.

Currently, we're continuing to make our way through the issues and questions raised by local stakeholders and the many government departments who are involved in the process.

It isn't possible to put a date on when a decision will be made, but please be assured we are working hard to keep things moving.

In the meantime we're getting on with project planning which will help us to start the construction phase quickly, if the project is approved.

### *Support for knitters*

This week we want to give a big shout out to Blayney Woolcraft and Hobby Inc, a group of women who meet fortnightly to support one another and learn new skills.

Most importantly, they put those skills to great use, helping other organizations in the Blayney/ Orange district.

Their knitted donations include premi beanies for the Premi-Babes Association (Orange), blankets for Ronald McDonald House and knitted squares for Wrapped With Love.

Their members are all pensioners and though they do use their own funds, they happily accept donations to help buy wool and

fabric for their knitted donations. If you'd like to join us in donating to this very worthy cause please contact the Treasurer, Jan Steele (pictured with me, above): *ph. 0433 166 094.*

**Regards, Tony.**
