Meeting community representatives online

Staying in touch with our neighbours, local residents and community representatives is a priority for Regis.

One of the ways we do this is through regular meetings of the Community Consultative Committee (CCC), a body set up to monitor the McPhillamys Project.

Last week we met via Zoom (the online platform) which enabled us to catch up with the Committee and answer questions from the community.

For more information about the McPhillamys CCC go to: mcphillamysgold.com/community

McPhillamys team is on board with Covid vaccinations

If you work in mining or know someone who does, it won't come as a surprise that we take safety very seriously. Including when it comes to Covid 19.

Watching events in Sydney and Melbourne has been very concerning but in recent weeks the issue has hit a lot closer to home, with cases now spread across the Central West, including here in Blayney.

I'm very pleased to report that every person in our Blayney team has now had their first (and in some cases first and second) dose of the vaccine.

If you're thinking about getting the vaccine, free clinics are operating all week in Bathurst and Orange and you can just walk in, with no appointment necessary.

Regards,

Tony McPaul
