

# McPhillamys Gold Project

## Project Update

Special Projects

### *Rain at last*

What a relief to finally see some decent rain — it certainly makes a welcome change from the heat and dust storms we've had this summer.

### *A busy year for WIRES*

The continuing dry conditions have had many local impacts, including an increase in the number of kangaroos, koalas, birds and other animals struggling to find enough food and water.

Volunteer wildlife carers at WIRES have had a very busy year due to the increased demand for their animal rescue and care services.

The Central West branch always welcomes assistance so please get in touch with them if you can help. Call 1300 094 737 or go online at:

<https://www.wires.org.au/branch/centralwest>

### *FOOD Week events in the Blayney Shire*

Despite the drought, it's great to see farmers, producers, residents and visitors celebrating our wealth of local produce through events like F.O.O.D Week.

The 2020 Program features lots of great events around the Shire, including the Autumn Grazing Dinner in Blayney on Monday 30 March.

Tickets are still available for the Grazing Dinner and many other local events. For more information check out the F.O.O.D Week Program at:
