

## Project Update

*Tony McPaul*  
Manager  
Special Projects

### *Farewell 2021*

With Christmas just around the corner and 2022 on its way it's a good time to draw breath and reflect on another interesting year.

Here at McPhillamys we are grateful to have made it through another 12 months of COVID, with relatively little impact on our team or their families.

Despite the restrictions, we've made significant progress on the Project and we are grateful for the community support we have received. In particular, we appreciate the patience and understanding of the residents

of Kings Plains, as we continue to work with them on various aspects of the Project.

The New Year will see our team continue to grow as we prepare for a final decision and a possible approval.

Along with some new faces we will see current members of the team stepping up to take on new roles, including External Relations Manager Kath Logan who will be taking over this fortnightly column.

Kath will be doing these updates along with a range of other activities to help keep all of our stakeholders informed and involved.

On behalf of the whole Regis team Merry Christmas, Happy New Year and stay safe.

Regards,

**Tony McPaul**  
Manager Special Projects  
Regis Resources

**Regis Resources wishes everybody in our community a Merry Christmas and a Happy New Year.**

We hope the festive season is a peaceful, fun and safe time for all.

The Regis Blayney office will be closed from midday 24 December—4 January 2022.
