Thanking Rural Fire Service (RFS) volunteers

The devastation of the 2019-2020 bushfires was felt by people across the country and around the globe.

Alongside the tragic events of that summer, there were also some amazing displays of community spirit, bravery and sacrifice. Mostly by the brave firefighters who stepped up to help save the properties and homes that were impacted.

Members of the Kings Plains RFS Brigade were amongst those who took time off work to fight the fires, travelling to places including Ebor, Cooma, Moonbi, Dorrigo, Kempsey, Rylstone and Cudjogong.

Citation ceremony

Last week they were thanked by RFS Canobolas Zone Acting District Manager, Brett Bowden, who presented the brigade with the Commissioner's Unit Citation for Service, to mark the group's contribution.

Regis employee and local farmer, Sarah Parfett was one of six volunteers recognised for outstanding service. Between them they completed 17 five-

day deployments and nine 12-hour shifts fighting the fires at Rylstone.

Our appreciation goes to members of the Kings Plains RFS who volunteered in 2019-2020—and for many other fire events locally and around the state. Thanks for keeping us safe.

Regards,
Kath Logan
