### McPhillamys Community Consultative Committee

The McPhillamys Community Consultative Committee (CCC) provides opportunities for community participation in the McPhillamys Gold Project. It includes representatives from the local community, Regis and local councils.

The CCC will meet again on 28 March 2022, so please get in touch with a committee member if you have questions or issues for the meeting.

For more CCC information go to: <https://mcphillamysgold.com/mcphillamys/community>

### Trees for neighbours

Kings Plains residents and McPhillamys neighbours are gearing up for the autumn planting season following our annual native tree giveaway, in February.

Regis Chief Operating Officer, Stuart Gula, met residents as they collected their trees which were grown from seeds collected from local properties.

Over 1,300 trees were given away with varieties including Yellow Box, Blakely's Red Gum, Manna Gum, Red Stringy Bark and Broad-leaved Peppermint.

The trees were grown for Regis by Skillset Land Works and Central Tablelands Landcare.

Regards,
