

McPhillamys Gold Project

Project Update

Talking about the McPhillamys Project

After almost two years of Covid lockdowns and limits on community events, it's great to see community groups getting back to their regular meetings.

The McPhillamys Project team has also been out and about, catching up with locals to provide updates and answer questions.

In recent weeks we've given presentations to Blayney Rotary, Newbridge Progress Association and Blayney Men's Shed. We appreciate the hospitality shown by these and other local groups.

If you'd like us to meet with your group please get in touch, we'd be happy to do a presentation or come for a chat (contact details below).

Blayney Men's Shed

As I mentioned above, we had a great morning tea meeting with members of the Blayney Men's Shed.

Local men go there twice a week to work on personal or group projects in both wood and metal.

Some enjoy coming along to just to sit and have a chat with mates over a cuppa and a biscuit.

On Sundays they have a walking group which leaves the Men's Shed at 9.00am for a walk around town, followed by a barbecue breakfast back at the shed.

They welcome visitors to come and see what they are up to and they are also happy to take on minor

repairs to household items and furniture (anything within their capacity to do the work). The shed is also developing a garden which will soon be available for sharing with the community.

Free Careers Event

Do you have a school-age son, daughter, grandchild or friend thinking about future career options? They might be interested in the Mining Careers Dinner in Bathurst on 25 May.

This free event is being hosted by the NSW Minerals Council for school students and their parents/carers. For more information or to register for the event go to: <https://www.eventbrite.com.au/e/nsw-mining-careers-dinner-bathurst-registration-256509886977>
