Relations  
Manager

### Supporting our local health services

The Blayney Multi Purpose Service delivers essential health services to our community. Their dedicated staff work tirelessly to ensure that local people always get the best possible care.

One of the very valuable services they offer is support for palliative care patients and their families.

Regis is very pleased to support this service through a recent \$6000 donation for new recliner chairs in the palliative care suite and residential care rooms.

A/Health Service Manager Kathy Hillier said the chairs' flexibility helped patients to move from sitting to standing positions.

Kathy said the other benefit is that they could be used by relatives, to stay overnight when their loved ones are in the Centre.

This is one of the many important local causes we've supported through our 2022 Community Investment Fund.

The Fund has invested over \$200,000 since 2013, supporting health, education, sporting and community causes in Blayney and nearby towns.

For more information about the Regis Community Investment Fund or any other aspect of our work with the local community, please get in touch (contact details below).

Regards,
