

# McPhillamys Gold Project

## Project Update

### Meeting with your Community representatives

Regis Resources and NSW Planning staff met with local community representatives to talk about the McPhillamys Project last Monday, at our regular gathering of the McPhillamys Community Consultative Committee.

The Committee includes representatives from the Councils of Blayney, Cabonne and Bathurst as well as local residents and community groups with an interest in the McPhillamys Project.

The meeting included an update from Regis on the assessment process; site investigations and activities; and Regis community investments and communication.

We also welcomed new committee members (and alternates) Jordan Butler and Bruce Reynolds (community) and Robert Taylor (Bathurst Council).

For more information please see our website: [mcphillamysgold.com/community/community-consultative-committee-ccc/](http://mcphillamysgold.com/community/community-consultative-committee-ccc/)

### Big numbers for mobile blood bank

A huge thank-you to the many local people who turned out to donate blood during the August mobile blood bank visit to Blayney.

Blood bank staff were delighted with the local response with 33 people donating on the day.

### Local picnic days

With spring in the air it's great to see so many local events coming up on the calendar.

Regis is very pleased to be supporting two family picnic days planned by the Blayney Town Association (BTA) in early October (see the BTA Facebook page for the full holiday program).

There'll be all sorts of free games and activities and a sausage sizzle catered by Blayney Rotary.

Congratulations to the BTA team on this great community initiative.
