

## Project Update

*Kath Logan  
External  
Relations  
Manager*

### **Managing the impacts of the project**

An important part of any mining project is how we mitigate and manage the predicted impacts. These include social impacts such as accommodation, employment and business opportunities.

Regis is currently preparing a Social Impact Management Plan which will define how we intend to manage the potential social impacts of the project, that were identified during the project assessment and approval process.

### **How to get involved**

We will be meeting with and

hearing from neighbours and residents across the Shire, as well as representatives from local groups and Councils.

The Regis team will be providing a number of options for you to get involved and provide feedback. These include meetings with local groups and stake-holders and pop-up stalls in Blayney and local villages.

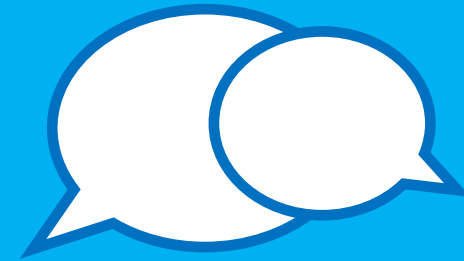

You can also call or email us at the Regis office (see below).

### **Is your application in?**

A reminder that applications close tomorrow (17 November) for our next round of Community Investment grants. Please get in touch asap if you need more information or help with your application.

**Regards,**

**Kath Logan  
External Relations Manager  
Regis Resources**

**Social Impact  
Management Plan:  
your feedback is  
important.**
