

## Project Update

Kath Logan  
External  
Relations  
Manager

### Shout out to the vollies who make Blayney tick

The Blayney Shire is fortunate to have many hard-working volunteers and community groups.

Their work is particularly important in helping local children and families.

The Regis Community Investment Program provides financial assistance to these organisations, with a focus on activities and events which provide long term health and social benefits to local people.

Our Christmas 2023 grant round continues that support, helping local people provide services including:

- swimming lessons and sporting equipment for local students;
- assistance for cancer patients and their families;
- upgrades to local halls, showgrounds, and other community facilities;
- Workshops and training for volunteers; and
- Festivals, shows and other events.

Thankyou to all of our local volunteers—you are making a great difference.

Regards,

**Kath Logan**
