Manager

Investing in our Community — applications now open!

Regis has invested continuously in local community groups and causes since 2013, with a strong focus on supporting organisations in the Blayney LGA.

Our June 2024 Community Investment round is now open for applications, with grants up to \$1,000. We will be funding projects in the following focus areas:

- Environment
- Agriculture
- Health
- Education
- Tourism
- Social Disadvantage
- Community Development
- Sporting and/or Special Interest

Who is eligible to apply?

Regis funds organisations or projects that are within the Blayney Shire, promote community development and benefit a cross-section of the community. We especially encourage registered charities, non-for-profit organisations, community or educational groups.

Projects also need to demonstrate that they are well supported by local people, and contribute to the longer term well-being or development of the community.

Applications and guidelines

To apply on behalf of a local group or organisation please contact us via email at: nsw_enquiries@regisresources.com

You can also call in to our Blayney office to pick up an application form (and a copy of the guidelines) or discuss your application. Applications close 14 June, 2024.

Regards,
Kath Logan
